Description:

Cenocco Beauty CC-9019: Rechargeable Anti Callus Foot Care

Want to get rid of those nasty calluses, dry spots, and cracks the easy way? Looking to quickly and easily get your feet looking clean, healthy, and attractive without spending a fortune?

Invest in this to love your feet, not be embarrassed by them. With the amount you'll save in pedicures, this will literally pay for itself. Plus, keeping your feet healthy is worth far more than the price you're paying. If you've tried other products or solutions but weren't happy, you need to try this! This callus remover is an innovative device created to remove dry skin and hard calluses without grating. It works faster and is safer than metal scrapers, without the risk of bleeding and injury to the skin. It is easier to use than other methods that require constant friction to achieve the result. It runs on batteries and its design allows to keep feet in a comfortable position as it polishes away your calluses easily.

Features:

This detachable roller is made of high-quality mineral materials that will last longer than any other electric foot scrubber. It is more practical. This electric foot file is a cutting-edge portable pedicure tool that safely removes hard, dry, dead skin, cracked, and calloused skin from the soles of your feet. This electric callus remover includes a battery. This foot pedicure tool has dual speeds of forceful and gentle controls to buff away hard skin from the feet quickly, easily, and effectively. Turn on the switch gently, and then gently place it on the skin to buff the hard skin away for a moment. Our callus remover for feet can make the skin on your feet smoother, sexier, and more elegant than before. Because of its ergonomic and portable design, you can take it with you anywhere. This is also waterproof for both wet and dry use, as well as easier to clean and more comfortable. It can smooth your feet 360 degrees in seconds. It is easier to use, has larger rollers, is not cheaply made, and is superior to manual foot files, foot buffers, scrappers, and scrubbers.
