Herzberg HG-5380: Multi-Purpose Aluminum Telescopic Extension Ladder - 3.8M
Herzberg HG-5380: Multi-Purpose Aluminum Telescopic Extension Ladder - 3.8M

Discover the convenience and reliability of the Herzberg HG-5380: Multi-Purpose Aluminum Telescopic Extension Ladder - 3.8M, a versatile tool designed to cater to handymen and DIY enthusiasts with precision. This telescopic ladder stands tall at 3.80 meters and conforms to the EN131 standard, setting a new standard for convenience and robustness. Whether you're a seasoned construction professional or a casual DIY enthusiast, this ladder is an essential addition to your toolkit.

The Herzberg HG-5380 boasts a thoughtfully ergonomic design, offering a foldable and compact size that makes logistics and transportation a breeze. Weighing in at a mere 11 kg, this ladder is easy to carry and maneuver, eliminating the hassle of bulky equipment. Its 47 cm width when collapsed ensures efficient storage, making it a perfect space-saving solution for

homes, workshops, or vehicles.

Safety and performance are at the core of the Herzberg HG-5380's design, providing peace of mind as you tackle various tasks. Its sturdy construction, supported by elastomer suspensions, guarantees a stable and secure experience, reducing the need for external support. Whether you're painting walls, cleaning windows, conducting home repairs, or accessing hard-to-reach areas, this ladder's reliability will never let you down.

Crafted from high-quality anodized aluminum, the Herzberg HG-5380 is built to withstand the test of time and perform optimally across all types of terrains. Its unbeatable value for money ensures you get the most out of your investment, providing a cost-effective solution to all your height-related needs.

Experience the ease and efficiency of working with this 3.8M telescopic ladder, designed to adapt to various angles, heights, and environments. With a thickness of 1.3mm for both the aluminum and each step, and equipped with anti-slip feet, a 2.6mm thick hinge, and a maximum load-bearing capacity of 150 kg, it offers a comprehensive and secure user experience.

The Herzberg HG-5380: Multi-Purpose Aluminum Telescopic Extension Ladder - 3.8M is an indispensable companion for every DIY project, offering unparalleled versatility and ease of use. Whether you're indoors or outdoors, it guarantees an effortless and efficient workflow, enhancing your productivity and saving valuable time and effort.

Upgrade your ladder game with this lightweight and easily portable solution that perfectly fits in your car trunk, providing you the freedom to take on any task, no matter the location. Experience the convenience of this exceptional telescopic ladder, and take advantage of its seamless performance and unmatched durability.

Features:

Adjustable Length: The ladder extends up to 3.8 meters, providing versatile height options to cater to various tasks and working environments. **Robust Construction:** Crafted from high-quality anodized aluminum with a thickness of 1.3mm, ensuring durability and strength for long-lasting performance. **Secure Footing:** Equipped with anti-slip feet, ensuring stability and preventing accidental slips during use. **Multi-Angle Trestle Ladder:** Offers flexibility and adaptability to various angles, allowing you to reach tricky spots with ease. **Easy Adjustment:** The 2.6mm thick hinge enables smooth and secure adjustment of the ladder's length to suit your specific needs. **Space-Saving Design:** Foldable and compact, this ladder takes up minimal space, making it easy to store in homes, workshops, or vehicles. **Maximum Load-Bearing Capacity:** With a capacity of up to 150 kg, this ladder can handle heavy-duty tasks and provide reliable support. **Portable and Lightweight:** Weighing only 11 kg, this ladder is easily portable, allowing for effortless transportation and use in various locations. **Indoor and Outdoor Use:** Designed for both indoor and outdoor applications, making it ideal for a wide range of projects. **Ergonomic and User-Friendly:** Thoughtfully designed with elastomer suspensions for enhanced stability and ease of use, requiring minimal external support. **Secure Locking System:** The ladder's smart locking mechanism ensures safety during use and facilitates smooth retraction for storage. **Versatile Applications:** Suitable for various tasks such as painting, cleaning, repairing, and accessing hard-to-reach areas, making it a multi-functional tool for any DIY project.
