

### **Cenocco CC-0046: Ultrasonic Pest Alarm with Infrared Sensor**

Protect your home from pests without the need for toxic chemicals or harmful sprays, ensuring a safe and eco-friendly environment for your family. Enjoy peace of mind knowing that the Cenocco CC-0046 Pest Alarm offers easy-to-use, effective, and versatile pest control solutions, keeping your home pest-free with minimal effort.

**Manufacturer: Cenocco Home**

**Reference: CC-0046**

#### **Description:**

Say goodbye to pesky pests with the Cenocco CC-0046 Pest Alarm, a versatile repellent designed to rid your home of mice, rats, spiders, ants, flies, cockroaches, and more! Using advanced ultrasonic technology, this device emits a range of deterrents, including sonic alarms, strobe lights, and predator noises, effectively driving pests away without the need for toxic chemicals or traditional traps. Its eco-friendly design ensures a safe living environment for you and your pets, while its easy-to-use operation makes pest control a hassle-free experience.

Equipped with three pest-repelling technologies, including adjustable ultrasonic signals and a menacing predator alarm, this device offers comprehensive protection for areas up to 5,000 square feet. The built-in infrared motion sensor detects pests from up to 50 feet away, activating the alarm system to deter intruders effectively. With both plug-in and battery-operated options available, as well as an efficient power consumption rate, the Cenocco Pest Alarm provides long-lasting performance and peace of mind against unwanted visitors in your home.

**Features:**

**Multi-Pest Repellent:** This feature means that the Cenocco CC-0046 Pest Alarm is capable of effectively removing various types of pests commonly found in households, including mice, rats, spiders, ants, flies, and cockroaches. **Triple Pest-Repelling Technology:** The device utilizes three different pest-repelling technologies - ultrasonic waves, sonic alarms, and strobe lights. These technologies work together to create an environment that is inhospitable to pests, driving them away from your home. **Eco-Friendly Solution:** This feature indicates that the pest alarm does not rely on toxic chemicals or harmful sprays for pest control. Instead, it offers a safe and environmentally friendly alternative to traditional pest control methods. **Easy to Use:** This feature highlights the simplicity of operating the device. Users can easily plug in the device and let it work autonomously, without the need for complex setup or maintenance procedures. **Adjustable Ultrasonic Signals:** With this feature, users can customize the frequency of the ultrasonic signals emitted by the device to target different types of pests effectively. This allows for flexible and tailored pest control solutions. **Motion Sensor Detection:** The device is equipped with a motion sensor that can detect pests from up to 50 feet away. When pests are detected, the alarm system is activated, prompting immediate action to repel them. **Large Coverage Area:** This feature indicates that the pest alarm can protect a significant area of up to 5,000 square feet, providing comprehensive pest control coverage for your entire home. **Low Power Consumption:** The device is designed to consume minimal power, ensuring long-lasting performance without significantly impacting your energy bills. **Versatile Placement Options:** Users have the flexibility to place the device on the ground or mount it at various heights to target specific pests effectively. This feature allows for customizable placement based on the unique pest control needs of your home. **Safe for Everyday Use:** The pest alarm is harmless to humans and pets, with an audible alarm option that won't disturb neighbors. This ensures that you can use the device safely and comfortably in your home.

**Specifications:**

Brand name: Cenocco Color: White Materials: ABS Plastic Power Source: Plug-in & Batteries Rated Voltage: 110V-230V Frequency: 50-60HZ Power Consumption: 7W Sensor Detection: 50 feet Effective Range: within 5,000 square feet Efficiency Range: 2000 sq. ft

**Placement:**

For ground animals, like rats, raccoons, etc. Place the unit near the height of the animal you want to repel and facing the area where they most like to frequent. Don't place it on the ground as this will limit the effective range of the device.
