

Cenocco Portable Heater

Cenocco CC-9079: Portable Heater

Manufacturer: Cenocco

Reference: CC-9079

Description:

Cenocco CC-9079: Portable Heater

Create a warm and cozy room during the winter season with the Cenocco CC-9079: Portable Heater. This heater operates through electricity and uses a ceramic heating element that proves faster and more effective and efficient in producing abundant heat. The temperature is perfectly maintained during operation due to the temperature sensor which cycles the heat. Able to produce 15 degrees to 32 degrees it will bring a continuous warmth anytime and anywhere. This heater is well constructed using high-quality materials to sustain durability and guarantee built to last features. Created with a safety feature, this heater has an overheat protection system that automatically shuts down the unit during malfunction to assure safety and reliability. The heater is manually operated to appropriately select the necessary setting and it has a 2-speed function. It also produces a clean and odorless air that makes it safe to use regularly. Perfect for home use and while on the road.

Features:

Small, light and easy to use Turn it on and select the desired temperature A built-in timer automatically when reaching the

set temperature Ceramic element is eco-friendly Clean and odorless Compact space-saving construction Advanced safety features Automatic overheat protection Portable, safe & reliable Energy efficient Small size, use it at home, dorm, office, kitchen & on the road Comes with a remote control
