Product Description and Specification

The Herzberg HG-5065 Stand Mixer and Blender is a high-powered 2-in-1 kitchen equipment made to make your life in the kitchen easier. This multipurpose appliance is equipped with a powerful 1200W motor (1800W max) and a 6.5L stainless steel bowl, making short work of any kitchen duty.

The Herzberg HG-5065, which operates on 220V-240V, 50Hz/60Hz, provides steady power for dependable, effective operation. This stand mixer and blender has the perfect speed and power settings for kneading dough, whisking eggs, and blending ingredients.

With its six speeds, this mixer puts you in charge of the mixing. You may easily change the speed from low for light whisking to high for heavy dough making. The ability to quickly start and stop the pulse speed function also facilitates

controlled and precise mixing and blending.

The Herzberg HG-5065's tilt-back head design makes it simple to add ingredients and clean the bowl. This helpful addition streamlines the cooking process by saving you time and work.

The Herzberg HG-5065 makes quick work of mixing paste, taking only two to three minutes to complete. Its robust engine and well-considered design ensure rapid and thorough mixing, guaranteeing consistently silky results.

The S Planetary mixing motion produces precisely blended batters, doughs, and mixes because it provides complete and even mixing of ingredients. Put an end to lumps and uneven textures with the help of this stand mixer and blender.

The Herzberg HG-5065 is simple to clean up after use. The stainless steel mixing bowl can be removed for easy transport or individual cleaning. The removable parts also facilitate cleaning and upkeep, guaranteeing the optimal condition of all moving parts.

The Herzberg HG-5065 Stand Mixer and Blender is a great investment for any kitchen. With its high-powered performance, roomy capacity, and flexible features, it is the best partner for your kitchen adventures. This innovative culinary tool will free your imagination, help you save time, and produce tasty food. Put your baking and cooking skills to the next level by ordering one now!

Product Features:

Stand Mixer

Powerful Stand Mixer: The Herzberg HG-5065 Stand Mixer is equipped with a robust 1200W motor (1800W max) and a large 6.5L stainless steel bowl (SUS304), providing ample capacity for mixing dough, whisking eggs, and blending ingredients. **Versatile Control Settings:** The stand mixer offers 6 operating speeds, allowing you to adjust the settings according to your specific needs. From gentle mixing to heavy-duty dough making, you have full control over the mixing process. Additionally, the pulse speed function provides quick start and stop control for precise mixing. **Easy Access and Tilt-Back Head:** The stand mixer features a tilt-back head design, ensuring easy access to the stainless steel bowl. This allows for effortless ingredient addition and convenient bowl scraping, simplifying your mixing tasks. **Fast Mixing Capability:** With the Herzberg HG-5065 Stand Mixer, you can mix paste in just 2-3 minutes. The powerful motor and thoughtful design deliver efficient and thorough mixing, saving you valuable time in the kitchen. **S Planetary Mixing Action:** The stand mixer's S Planetary mixing action ensures comprehensive and even mixing of ingredients. This results in perfectly blended batters, doughs, and mixes, providing consistent and professional-quality results. **Removable Stainless Steel Bowl:** The stainless steel bowl of the stand mixer is removable, making it easy to transfer your mixture to another container or clean it separately. This feature enhances convenience and simplifies operation.

Blender :

Powerful Blender: The Herzberg HG-5065 Blender boasts a powerful 1200W motor (1800W max) and a generous 1.7L capacity. This combination of power and capacity allows you to blend a variety of ingredients, from smoothies and shakes to

soups and sauces. **Versatile Control Settings:** The blender component of the Herzberg HG-5065 offers the same 6 operating speeds as the stand mixer. This enables you to adjust the blending speed to achieve the desired texture and consistency for your recipes. **Pulse Function for Efficient Blending:** The blender is equipped with a pulse setting, specifically designed for tasks like crushing ice or creating quick bursts of power. The pulse function delivers short and powerful impulses, ensuring efficient blending results. **Easy to Clean:** The blender jar is easily detachable, making it convenient to clean after use. You can quickly and efficiently maintain the blender's cleanliness, ensuring hygiene and longevity.
