### **Herzberg HG-5440: Retracting Aluminum Telescopic Ladder - 4.4M**

Introducing the Herzberg HG-5440: Retracting Aluminum Telescopic Ladder - 4.40M, a highly practical and robust ladder that meets the EN131 standard for exceptional safety and performance. Crafted from Aerospace Engineered 6061 alloy with a smooth anodized finish, this ladder guarantees durability and toughness for all your vertical access needs. Weighing just 17kg, it's incredibly lightweight and easy to transport, making it the perfect companion for any job, be it industrial, commercial, or home use. Its compact design allows for easy storage, consuming minimal space with a width of only 54cm, making it a great fit for your car compartment.

The Herzberg HG-5440 features an ergonomic design with independently lockable sections, allowing you to adjust the ladder to the necessary height easily. Equipped with elastomer suspensions, it provides stable and balanced support on various terrains, even rugged surfaces. A smart mechanism ensures smooth ladder retraction for safe and effortless operation.

This ladder prioritizes safety and efficiency, making it ideal for tasks such as changing light bulbs, painting walls, cleaning windows, and maintaining gutters, especially in hard-to-reach places.

The Herzberg HG-5440: Retracting Aluminum Telescopic Ladder - 4.40M is not only reliable and versatile but also cost-effective. Made from an Aerospace Engineered 6061 alloy, it offers unbeatable value for your money, combining quality craftsmanship and thoughtful design. The ladder is suitable for a wide range of applications, from industrial projects to home repairs. Its specialized non-slip molded foot ensures stability during use, providing peace of mind as you work at height.

With its smart locking system design and stabilizer bar for solid support, this ladder ensures safety and stability while reducing any risk of accidents. The drag lock-to-fail steps adds an extra layer of security, giving you confidence in every task you undertake. The integrated carrying handle and heavy-duty closure strap make it easy to transport and store when not in use.

Whether you're a professional contractor or a DIY enthusiast, the Herzberg HG-5440: Retracting Aluminum Telescopic Ladder - 4.40M is the perfect tool to add to your arsenal. It's designed to withstand heavy-duty use and provide the ultimate convenience for various tasks. Invest in this top-quality ladder and experience the convenience and efficiency it brings to your everyday tasks. From industrial work to household chores, this ladder has got you covered with its exceptional performance and reliability.

## Features:

**Practical and Robust:** The Herzberg HG-5440 Telescopic Ladder is designed to be one of the most practical and robust ladders in the world. It meets the EN131 standard for exceptional safety and performance, making it suitable for both occasional handymen and professional construction workers. **Aerospace Engineered 6061 Alloy:** Crafted from high-quality Aerospace Engineered 6061 alloy, this ladder is built to last.
