Product Description and Specification

Introducing the Herzberg HG-8022-3: Professional Chafing Dish - a sophisticated and functional addition to your event or celebration. This chafing dish is designed to keep your food warm and fresh with its elegant mirror finish. Constructed from top-quality stainless steel, it boasts durability and can withstand the rigors of everyday use. The food-grade stainless steel material is mirror-polished, ensuring a safe serving environment.

The Herzberg HG-8022-3 chafing dish comes complete with a folded welded rack, cover, water pan, 3 1/3rd size food pans, 2 fuel holders, and a lid. The welded integrated handle on the frame remains cool to the touch, providing convenience and safety. The frame is durable, well-balanced, and stable, while the foldable legs allow for easy placement, storage, and transport. The mirror finish not only adds to its elegance but also facilitates convenient and easy cleaning.

Perfect for catering and food service, buffets, hotel breakfast areas, brunches, potlucks, parties, wedding banquets, and self-service events, this chafing dish offers versatility and practicality. It allows you to accommodate three different dishes with its 1/3rd size food pans, keeping a variety of food options warm and ready to serve.

Features:

Versatile Food Pan Configuration: The Herzberg HG-8022-3 Chafing Dish features three 1/3rd size food pans, allowing you to serve and keep warm three different dishes simultaneously. This versatile configuration enables you to cater to diverse culinary options and enhance the dining experience. **9-liter Stainless Steel Chafer Set:** With its 9-L capacity, this chafing dish provides ample space to accommodate large quantities of food. It ensures that your dishes remain warm and ready for guests to enjoy, making it ideal for catering events, parties, and self-service occasions. **High-Quality Food-Grade Stainless Steel:** Crafted from top-quality SUS201 stainless steel, this chafing dish guarantees durability, longevity, and safe food contact. The mirror-polished stainless steel material resists rust and corrosion, ensuring a hygienic serving environment. **Superior Design for Catering and Food Service:** The Herzberg HG-8022-3 is designed to meet the demands of professional catering and food service. Its elegant and durable frame provides stability, while the foldable legs facilitate easy storage, transportation, and placement on buffet tables. **Easy to Clean and Maintain:** The mirror-finish stainless steel surface of this chafing dish allows for convenient and effortless cleaning. Simply wipe off any food residue or stains, and it will shine like new, ready for the next event. **Lid Holder with Cool-Touch Handles:** The chafing dish includes a lid holder with cool-touch handles, ensuring safe and convenient handling while serving. The lid can be easily placed and kept within reach, minimizing heat exposure and preserving food temperature. **Convenient and Eco-Friendly:** The Herzberg HG-8022-3 requires no external power source, making it a practical and eco-friendly choice. It utilizes fuel safety burners to provide consistent heat, keeping your food warm without any electricity consumption. **Packable Design for Easy Transport and Storage:** The foldable legs and compact design of this chafing dish allow for convenient transport and storage. Whether you're a professional caterer or a home cook, you can easily stack, pack, and transport the unit to your desired location. **Corrosion and Rust Resistant:** The chafing dish is constructed with corrosion and rust-resistant materials, ensuring its longevity and durability even in challenging environments. It is designed to withstand frequent use and maintain its pristine appearance. **Ideal for Catering and Food Service:** The Herzberg HG-8022-3 Chafing Dish is the perfect choice for a wide range of events, including catering, buffets, hotel breakfast areas, brunches, potlucks, parties, wedding banquets, and self-service events. It provides a professional and elegant solution for keeping food warm and enhancing the overall dining experience.'
