**Kinderline WBC726.1: Wooden Balance Bike**

**Kinderline WBC726.1: Wooden Balance Bike**

Give your child the confidence and control developed by an accelerated skill set with the Woodline WBC726.1: Wooden Balance Bike. This beginner bike is ideal for helping children develop their confidence and motor skills. With a balance bike, your child will make the transition to a two-wheeled pedal bicycle faster and easier. No pedals or training wheels mean the balance bike is easier for your young rider to use. With its durable wooden construction, this bike is built to last years so they can be passed down to younger siblings once your child's ready to move onto a more advanced model. 12-inch EVA foam wheels ensure a smooth and steady ride. It has an adjustable seat from 37cm to 44cm which only means that this bike will grow with your child. The paint, metal, and plastic parts have been certified as non-toxic, making this bike completely child-friendly. Have one now and make the transition to a two-wheeled pedal bicycle faster, safer and easier.
