Powertech PT-30 Professional Water Pump

Powertech PT-30: Professional Water Pump

The Powertech PT-30: Professional Water Pump is a high performance, high-efficiency low fuel consumption water pump designed to supply fresh water for homes, farms, plantation, and garden. Made from a high-quality steel alloy with a pull start 6.5 horsepower motor which is corrosion and wear-resistant and produces low heat. This high-performance water pump is equipped with alarm technology that able to detect "low oil" that truly prevents any damage from the engine. The steel frame of the engine bay is powder coated and meticulously welded for excellent durability and sturdiness. With the 30M lift height, this unit is perfect for a swimming pool, fish pond and garden irrigation and cleaning.

Features:

High performance with 30M lift height Easy to operate, safe and stable output Quick manual pull start-up and conveniently simple to operate High efficiency, low fuel consumption Power engine and well-constructed design Corrosion and wear-resistant Powdered coated and welded frame for excellent durability Low engine oil alarm for better safety and unit's protection Perfect for swimming pool, fish pond and garden irrigation and cleaning

Specifications:

Petrol Powered Pull start Connection System 80mm (3") Flow 60M3/H Suction Height: 7M Lift Height: 30M Displacement: 196CC Engine Type: 6.5HP Pump Type: Self- Priming Pump

Weight :	22.80 Kg
Volume :	0.08155 m ³
(L x l x H) :	51.00 cm x 41.00 cm x 39.00 cm
Box	1 units
Pallet	20 (Units)
Box dimensions	51CM X 41CM X 39CM
